ANTI INCINERATION GROUP SET UP

The HOTI Steering Group was set up as soon as the proposed site of the waste incinerator at Saltend was announced. Chaired by our local MP, Graham Stuart, it includes local councillors and activists and is non-political.

The Steering Group organised the initial meetings to raise public awareness regarding the plans for an incinerator at Saltend and will have ongoing responsibility for coordinating action against the proposals.

We intend to set up a larger management group including town and parish councillors from the affected Holderness area and representatives from Hull together with co-opted experts and specialists in the issues involved. We hope that local groups of activists will work in each community.

Members of the Steering Group are listed below.

Aims of HOTI

- 1 To campaign against the proposal for an incinerator at Saltend
- 2 To raise awareness of the proposal, the issues involved and the consequences for Hull and Holderness.
- 3 To get the proposal turned down at both the Hull and East Riding Planning Committees.
- 4 To get the proposal turned down at any subsequent Public Inquiry.
